# GOURMET

Every flavour we offer you is important for us. While we serve our guests different tastes, we carefully select everything from procuring the food to its cooking. We have established the "Kilit Et" meat farm to offer meat, milk and dairy products with safety to our guests. We carry out cattle breeding and milk production activities at Kilit Et. We carefully select the fruits and vegetables that enter the Crystal Hotels kitchens and send them to our hotels. We personally carry out the controls and follow-up of fresh fruit and vegetables collected at seasons. The delicacy of our foods lies in the fact that we follow up each step starting from growing the produce.

We carefully choose the vegetables that we route to the kitchens of Crystal Hotels. We personally do the controls and pursuit of fresh fruit and vegetables that are collected seasonally. The flavor in our food lies in the fact that the materials we use are overseen from their production to the table by us. From our center in Antalya Fresh Fruit and Vegetable Wholesale Marketplace we choose and bring the carefully selected fruits and vegetables to our kitchen.

To provide the most essential material of the kitchens, meat and dairy products we established the "Kilit Meat" farm. Under the Kilit Et we execute bovine animal husbandry and milk production. The productions at our farms are overseen by one certified agricultural engineer, two veterinarians and three technicians. We bring the meat, milk and dairy products to the Crystal Hotels kitchens only after the controls and inspections are completed.

## We love our little friends!

### **WE INVITE YOU TO BECOME MORE SENSITIVE...**

The animals can not tell their problems. Although they can not speak they deserve to live on this planet as much as we do.

#### **“Cat House”**

We wanted cats to continue their lives in their natural habitat with the cat houses in Crystal De Luoe and Crystal Tat Beach. All the sterilization procedures, parasite controls, periodic vaccines (like rabies) and feeding costs are met by us. The cats are fed with special cat food not food wastes or any such food. Our Crystal Tat Beach Golf Resorts Spa Hotel agreed on the decision to castrate the cats with the American organization PETA (People for Ethical Treatment of Animals)

#### **“Swallow Nests”**

At Crystal Paradiso Verde and Crystal Admirahcle we provide shelter to swallows during their migration periods with specially made nests.

#### **“Mini Zoo”**

We created special areas for them to protect them in a natural environment. At Crystal Flora Beach, there is a 66 meter square large zoo consisting of 7 segments. In this zoo there are 25 rabbits, 22 poultries, 24 pigeons and 2 dogs.

#### **“Caretta Carettas”**

At Crystal Family, Crystal Tat Beach, Crystal Paraiso Verde and Crystal Waterworld, at our beaches that the caretta caretta prefer, we put the areas they lay their eggs under protection and put warning signs
